

TU1 - Erasmus (a semester)

Niveau d'étude
Bac +4

ECTS
30 crédits

Composante
**Institut d'Administration
des Entreprises (IAE)**

Présentation

Description

The student will have to complete a semester of ERASMUS or six months of internship in the second semester of M1 MCI.

For students who opt for ERASMUS mobility, course validation is mandatory.

For students who prefer to do an internship, a technical note and a video defense (3 minutes) are to be validated. The internship must last 24 weeks and student can place his/her internship during the period from 1st January to 31st August. Students are responsible for finding and choosing the organization in which they will do their internship. The organizations and themes of the internships can be varied, as long as they remain coherent with the training. Once validated by those in charge of the training, the internship is the subject of an agreement signed by the student, the IAE and the host organization. A tutor-teacher is appointed by the head of the program M1 to ensure the monitoring of the student during his internship. It is to this tutor that the trainee will submit the technical note and video defense in connection with the internship.
