

Linguistique contrastive, énonciation et corpus

Niveau d'étude
Bac +4

Composante
Lettres et langues

Niveau d'anglais correct : le cours sera enseigné en anglais.

Présentation

Description

This course will focus on lexicon, word-formation processes and phraseology (collocations, idioms) across languages and will point out syntactic, phonological and translational aspects underlying lexical devices as well as differences and similarities between languages in the construction of meaning and the conception of reality through lexicon.

Objectifs

Acquire the main terminology in lexicology; be able to defend a linguistic stand in lexicology based on the reading and discussion of scientific papers and on the tools provided in the course.
