Présentation

Description

This course provides students with competences required for the writing of a master thesis. It focuses on empirical aspects such as data gathering as well as more formal issues regarding the use of bibliographical references or stylistic considerations. The course helps students anticipate their interactions with their master thesis supervisor. It sets some requirements about the kind of documents they should elaborate before a first discussion with him/her.

Heures d'enseignement

| | | |
|------------------------------|---|----|
| Thesis methodology - A-SARTD | Séminaire / Atelier (de recherche) - TD | 9h |
| Thesis methodology - CM | CM | 4h |

Syllabus

1. Defining a subject and a research question.
2. Data gathering : Ethnographical observation
3. Data gathering : Semi structured interviews
4. Working with bibliographic references
5. Constructing a project and writing

Compétences visées

Identify a subject and elaborate a project for a master thesis

Gather empirical data through qualitative methodology (observation and interview)
